

Share Everywhere is a powerful MyChart feature that allows you to share your medical information with healthcare providers outside at Lexington Eye Associates.

Why use Share Everywhere?

- ◆ **Access care anywhere.** Visiting an urgent care center, specialist, or traveling? You can securely share your records when needed.
- ◆ **Reduce duplicate testing.** Providers can review your recent visits, medications, allergies, and results.
- ◆ **Improve care coordination.** Outside providers have a more complete picture of your health history.
- ◆ **You stay in control.** Access is granted only through a time-limited code that you generate.

How to Use Share Everywhere in MyChart

1. Log in to **MyChart**.
2. From the menu, select **Share Everywhere**.
3. Generate a one-time access code.
4. Provide the code to the healthcare provider treating you.
5. The provider enters the code and your date of birth to securely view your information.
